What Advertisers Say.

The firm, whose letter we print below, gave us in 1867 what was then the largest contract we had ever received for our "LISTS OF 100 LOCAL NEWSPAPERS." The fact that they this year renew the order and increase the amount, is the best argument we can give that these "Lists" are good advertising mediums.

LIPPINCOTT & BAKEWELL,

MANUFACTURERS OF

Axes, Shovels, Saws, &c.,

No. 115 WATER STREET.

PITTSBURG, PA., Dec. 3, 1868.

Messrs. GEO. P. ROWELL & Co.:

Gentlemen:—One year ago with much hesitation we gave you an advertisement for one of your Lists of One Hundred local papers; a very short time thereafter we unhesitatingly added two more Lists of One Hundred papers.

But a short time elapsed before we were inquired of on every side for "Colburn's Patent Red Jacket Ax," proving to us that your plan of Lists had reached the very parties to whom we wanted to introduce the new patent Ax.

The year having now nearly gone by, we cannot but believe your system of advertising by "Lists of Local Papers" is just the kind of advertising we want, and we to-day, forward you an order still adding one more List of One Hundred papers, making the number now altogether four (4) Lists of One Hundred (100) local papers.

The more we talk with newspaper agents and editors' agents the more satisfied we are that the arrangement we have made with you is preferable to any we have ever heard of. The merit of the Ax itself has, of course, something to do with the great demand for it, but we are satisfied that by your system of advertising by "Lists" we have accomplished in one year what would have ordinarily taken us five years to accomplish.

Respectfully,
LIPPINCOTT & BAKEWELL.

The following from the National Publishing Co. of Philadelphia, may be taken as an answer to those who inquire if these "Lists" can really be good advertising mediums.

The Horse.

Yes, and the horse! Why, it seems as if no human being could ill-treat a horse. I suppose that some of you, my friends, were in this hall when Mr. Rarey was on the platform to show us how the fiercest and wildest horse could be subdued by kind treatment. The horse is willing to do anything you wish him to do, if you can only let him know what you wish. The whole life of a horse is spent in trying to help us, and he has no joy greater than in being able to help us. That is his pleasure. Yet we have taken him from those great plains where he roamed at large; we have deprived him of that free, joyful life that belonged to him, apparently, of right; we keep him shut up in a dark stable; we shoe him; we tie up his nose with this short rein, so as to make it twice as hard for him to drag a load up hill; we put blinders over his eyes, so that he cannot see anything, and therefore is much more apt to be frightened than if he could see every object fairly. The horse who loves to see everything, who is naturally curious and inquisitive, would enjoy himself ten times as much if we had a large window in our stables, so that he could look out; but no, we keep him standing, all day perhaps, with nothing to do and nothing to look at; and when we want to use him, we torture him, or allow him to be tortured, in these ways. And this is the noblest of our animals, of whom when poets sing, they grow more poetical than ever. The highest flights of lyric poetry seem to have been reached in speaking of the horse.

How Homer loves to sing of "solid-hoofed steeds, stretching forth the reins;" "the steeds with beautiful manes;" loves to tell how Iris set before them "ambrosial fodder" in the stables of the gods on Olympus; describes the steed "fed with barley," who had broken his halter, "prancing on the plain, elate with joy, and bathing in a swift-flowing river." What noble image in the wonderful pictures of the book of Job than that of the war horse, whose neck "is clothed in thunder," who "mocks at fear," and "swallows the ground with rage." And where modern lyrics, is there anything finer than Barry Cornwall's picture of Gamarra,—

"Fine his nose, his nostrils thin,
But blown abroad by the pride within."

And when this charming creature, who combines so strangely imagination and courage, spirit and timidity, becomes a Pegasus in harness, shall we not at least protect him from the brutality of those stupid drivers who vent their own ill-temper on the patient servant of man?—*James Freeman Clarke.*

Shirking the Question.

It is somewhat amusing to see how studiously the English newspapers keep the real questions of debate between England and the United States out of sight. They are continually putting childish arguments into our mouths, and then combating them with great vigor. They say we complain because they did not exhibit sympathy with us in our great struggle. We do not ask or care for their sympathy. We complain because they recognized an insurrection as a nation before it had struck the first blow for independence; and that they furnished a navy to a combatant that could not, if left to its own resources, have put a single vessel afloat. Of the measure of damages it may be impossible to speak with accuracy, or they may be of a kind that can never be paid. Our dead soldiers, slain by English cannon, can never be brought to life, and our ruined mercantile marine destroyed by English cruisers cannot be restored to its former strength. The question at issue is not one of sympathy. We do not complain of their likes or dislikes. If they preferred slavery and slaveholders, and chose to bestow all their love on that class, it was none of our business, but when they furnished the munitions of war to traitors and rebels we hold them responsible. We want no war with England, and should deplore such an event as the greatest calamity of the age, but we want it distinctly understood across the water, that we feel that we have been grievously wronged and that we insist upon reparation. If they are not willing to grant it now, we can afford to wait, but sooner or later it must and will be given us.

The Peace Festival.

The crowd on Thursday was far greater even than on the previous day. Thousands upon thousands who sought admission failed to get inside of the Colisuem for want of room. Even many who had tickets were excluded, as more tickets had been sold than there were seats or even standing room. The music was as good as ever, and the enthusiasm exceeded anything that had preceded it. This was the great day for the people, as the music was of that popular character which attracts the multitude.

Which of the Two?

"The powers that be," claiming to be Spanish, on the island of Cuba, are pretty thoroughly demoralized, if reports are true. They are little less than in open revolt with the home government. We therefore have, practically, two revolutions in progress on the island. Dulce has been driven out, and no more Spanish troops are wanted. The revolutionists have the same desires. It might be a legitimate cabinet question as to which of these parties, if either, is to be recognized by our government. Plainly neither of them represents Spanish interests. Why should we not recognize the one which represents ours?

Commodore Vanderbilt.

One year is following another pretty fast now-a-days, and it is by no means unnatural that men whose attention is frequently called to the vast wealth of the Railway King should occasionally inquire, "Who are his heirs?"

The Commodore has two sons, the elder of whom, Wm. H. Vanderbilt, of the Harlem Railroad, is in a somewhat precarious state of health. He is now detained in Europe by serious illness. The younger son, Cornelius Vanderbilt, Jr., is a man who seems to have many strong friends, but to prefer maintaining a sort of independence of his father. He holds at present a prominent position in the Revenue Department in New York, but it is thought likely that his father will soon bring him into closer business relations with himself. Besides his two sons, the Commodore has no less than eight daughters, all of whom are married. The old gentleman is quite an extensive grandfather. It has been, from time to time, stated in the newspapers that a portion of his descendants had been disinherited, but there is no truth in this, for there is no kinder-hearted man than the Commodore.

All this would be "private business" if it appertained to most men; but a fortune of anywhere from sixty to a hundred millions, including vast public works and valuable franchises, is a matter that concerns the whole community. Not a few will wish that the old gentleman had twice ten children, that what has been the "nightmare of Wall street" might be still more minutely subdivided.—*Citizen*.

THE SENSATION OF DROWNING.—A sailor named George Forbes, who was lost overboard from a scow in Lake Michigan and nearly drowned before he was rescued, thus describes in the Detroit *Free Press*, the feelings he experienced on the occasion.

I was feeling more courage, and striking out with a will, when a sudden cramp catched me all over, and I could not do another stroke. I felt like a lump of lead. My head began to spin around, a great lump rose up in my throat and choked me, and my eyes closed as if a weight had been hung on the lids. I began to drown—I felt it; then came a feeling something like a red hot rod being drawn through my brain.—My head felt like fire. A humming roaring noise went through my ears, and my body felt as light as a feather. The waves carried me about without an effort on my part, and I laughed—it seemed so curious that I laughed. I didn't care to be picked up—didn't care for Lizzie—only wanted to float and drift forever on the rollers. The water came into my face and mouth, but I never tried to keep my head up. I wouldn't have moved my finger to have been aboard the scow. It grew darker and darker; the old fire feeling came through my head again. Something clutched me by the leg and drew me down. I reeled to and fro, felt a noise like the discharge of a cannon, and then I dropped to sleep.

A letter from Delaware says: "The fruit prospect is magnificent. The whole State is full of strawberries now, at six cents a quart. Blackberries will be more plenty than mosquitos everywhere. Peaches will be a full crop, and unusually large and luscious, if the weather be dry."

There seems to be no diminution in the tide of emigration from Liverpool to America. For the week ending last Saturday evening over six thousand men, women and children left Liverpool alone for New York.

A party of four men attacked the house of Mr. Gray, a Magistrate at Black Rock, England, Wednesday night. The inmates resisted, and fired upon the assailants. One of the latter was mortally wounded. The others fled, leaving the injured man on the ground near the house.

A bright-eyed little fellow in one of the private schools in Brooklyn administered a sharp rebuke to his teacher the other day. Having spelled a word, his instructor said: "Are you willing to bet you are right, Bennie?" The little boy looked up with surprise, and replied: "I know it's right, Miss V., but I never bet."

The Lewiston (Me.) *Journal* says the money drawer of Mr. S. Newell, music dealer in Lewiston, has been twice robbed within a short time by a girl eight years old. She obtained a five dollar bill at each trial. The last time she purchased a quantity of candy, and had the hardihood to go back to Mr. Newell's to eat it and treat some persons she knew. On inquiry she did not explain where she obtained the money to purchase so much candy, and following up the matter she confessed the theft. Her parents refunded the money in the last case.

THE FARM.—Farming is a profession, not to say a science. If any one doubts this statement let him leave his city home—for no one bred in the country will doubt it—and undertake to cultivate even a garden of half an acre for the summer. He will then find that knowledge is as essential to the right use of the spade as of the pen, and that there is as great a difference between the scientific farming of Flanders, where literally not a weed is to be seen, and that of many of our farmers, the wealth of whose soil is about equally divided between fruits and weeds, as between the trade of a modern commercial city and the barter of a back-woods settlement. It is true that agriculture has been the last to receive the impetus of modern science. It is true that agriculturalists are content to go on in the ways of their fathers, because experiments are costly. But it is also true that they are unable to complete with those who understand the use of new instruments, methods, and fertilizers. Agriculture is also becoming in this country a popular recreation. Many a gentleman is content to spend on his country-seat money which he makes in the counting-room. The practical farmer is thus able to get the benefit of experiments without paying for them. This change in agriculture, which has converted it from drudgery to an art, has created a demand for a corresponding literature. "Fifty years ago a stable agricultural periodical did not exist on the American continent." Now every considerable district has one, while almost every weekly paper, secular or religious, has its agricultural department; and it will not be long before something of a library will be a part of the furniture of every well-ordered farm.—BOOK TABLE, *Harper's Magazine for July.*

There was a remarkable scene at the close of the McConnell murder trial at Jacksonville, Illinois. The plea of Colonel Robinson in behalf of the prisoner was very powerful, and when he had finished, the audience broke into loud applause. One or two of the jurymen and a great many of the spectators in court sobbed audibly, so affected were they by the eloquence of the prisoner's counsel. A score or more of boquets were thrown to the advocate, and the ladies, who introduced this new dramatic effect into court, cheered him loudly.—The judge did his best to suppress these manifestations of feeling, but wholly without success. The reporters for the Chicago papers are unanimous in characterizing it as a disgraceful scene for such an occasion.

A Cincinnati wholesale grocery house received on Saturday a lot of tea from China direct by way of San Francisco and the Pacific Railroad, and the *Gazette* of that city says:

"The flavor of teas received by this quick route, when compared with those by the six months' circuit of the Horn, is as the smell of the new mown hay to the lifeless odor of the baled hay of commerce. The aroma of a cup of this tea, which but a few weeks ago was delicately sealed up by tawny hands, steeps the senses in a kaleidoscope vision of the gorgeousness of the flowery land, and makes one feel as if China were our next door neighbor."

EXCURSION.—A large party of ladies and gentlemen arrived in this port yesterday from New York on a pleasure trip. They were bound further east.

FESTIVAL.—We understand Eureka Lodge of Good Templars is to hold a Strawberry Festival next week. The advertisement appears in another column, and a grand time is expected.

LARGE TRAIN.—Eight passenger cars composed the steamboat train from this city to Boston yesterday, and even then passengers were obliged to remain over to the eight o'clock train.

FROM NEW YORK.—The steamer Old Colony brought about 250 passengers this morning, and was completely filled with freight. The Newport line is not dead yet, and we suspect it will be found hard to kill.

ANOTHER BATH.—A horse and two men were dipped at Long Wharf this morning. This species of amusement seems very popular this season, as something like a dozen cases have been reported within a few weeks.

BASE BALL.—There is to be a matched game between the first nine of the Sea Side Base Ball Club of this city, and the first nine of the Sheridan Club of Fort Adams. The game will be on the Fort grounds commencing at 2 p. m. to-morrow.

RELIGIOUS.—Rebecca Collins an approved Minister of the Society of Friends requests the company of the colored people of this city, to attend a meeting at the Friends Meeting House on Marlboro' street, on First Day evening next at 8 o'clock.

GREAT CROWDS.—The Fall River *News* says that about eleven thousand persons travelled over the old Colony Railroad on Wednesday. This is a large crowd, but we judge the statement to be correct. The Old Colony is well fitted for an emergency of this kind, and probably no road in the country could have met the extraordinary demand in a better manner, or supplied the wants of the public in a more accommodating spirit.

GRAND ARMY OF THE REPUBLIC.—Soldiers and sailors who were engaged in the late war, and honorably discharged, will be interested in the announcement in our advertising columns, of a meeting to be held on the 21st inst. We should suppose that every one of these "veterans" would be pleased to revive old associations, and keep up old friendships by just such an organization as the Grand Army of the Republic. Though not ourselves eligible we would advise every one entitled to the privilege to be present at the meeting. The longer these men live and the older they become, the more they will appreciate the privileges and benefits of such a society.

TROUBLES BY THE WAY.—We hear that the Fall River steamboats have much trouble in getting to the wharves of our neighboring city. They have been, on several occasions, some two hours in landing their passengers, as was the case Wednesday morning when Gen. Grant was on board. The six o'clock train from that city was accordingly but about ten minutes in advance of the 8 o'clock train from Newport, when the two reached Boston. Some people have a prejudice against walking a plank from the deck of a boat that anchors away from the wharf, to say nothing of the delay, and we suspect, if all the reports are correct, a mud digger must be employed at Fall River, or even by the help of all the parties in New York, passengers will prefer the Newport route, and govern themselves accordingly. Most people would feel that it was poor policy to send these large boats to a harbor where they are liable to be frozen in in winter, and stuck in the mud in summer.

THE FRIENDS.—The Friends' Yearly meeting closed yesterday, and most of those who have been in attendance have now left the city. From all we can hear, we judge that the meeting has been unusually pleasant, and that the members have enjoyed their annual visit to this city in a very high degree. We can speak for the people of Newport and say with confidence that our citizens have greatly enjoyed their stay with us and feel only regret in witnessing their departure. They have come to mingle with our townsmen much more freely than in former years, especially in the religious services of the churches, and as is usually the case with christians, as they become known they are better appreciated and loved.

We learn that it has been decided to commence the meeting one day earlier in the week, after this, as it is found that it is impossible to do the business in the time heretofore allotted to it. The Society is rapidly increasing in certain sections of the country, and all good men will rejoice in the prosperity of a class of christians that has by its consistency and self denial won the respect of the whole world.

New Bedford.

The *Mercury* says, a man of color, entered our office, not long since, and wished to have his marriage inserted in the *Mercury*. Our clerk began to write as he dictated, and inquired the name of the bride. The bridegroom thought a moment and then said he would go and ascertain. After a few hours absence he returned triumphantly with the desired information.

A juror in attendance upon the Superior Court, now in session in the this city, left his horse and carriage tied to a tree near the depot in Dighton, when he came to Court on Tuesday morning last, and forgot that he had left his horse there, until yesterday (Thursday) afternoon, when he applied to the Court to be excused, to go and look after the welfare of his Pegasus.

H. C. Burchard (republican) has been elected a Representative in Congress, for the Third Illinois District, to fill the vacancy caused by the resignation of Hon. E. B. Washburne.

CURIOUS INCIDENTS,—COAL SHIPPED BACK TO PENNSYLVANIA.—We learn on excellent authority that one thousand tons of coal are now being shipped at Newburg, New York, to Easton, Pennsylvania, it is supposed for the use of the Pennsylvania Iron furnace.—Mr. Pardee, an extensive coal miner, residing near Easton, is also shipping a large quantity of coal by the Morris canal from Hoboken to Easton, at a freight of seventy cents per ton, besides the canal tolls, which will amount to about the same sum per ton. This 'carrying coals to Newcastle,' contrary to the laws of supply and demand, is but an incident of the outrageous methods resorted to by the monopolists to keep the price of coal at extravagant rates.—*Newark Journal*, 8th.

NATIONAL BANK REPORTS CALLED FOR.—The following notice has been addressed to the officers of all the national banks by the Comptroller of the Currency:

TREASURY DEPARTMENT,
Office of Comptroller of the Currency,
June 17, 1869.

In accordance with the provisions of an act of Congress entitled "An act regulating the reports of National Banking Associations," approved March 3d, 1869 you are hereby notified and required to forward immediately to this office, on the latest form of blank furnished for that purpose, a report of the condition of your bank as shown by its books at the close of business on the 12th of June, 1869.

An international conference of all the Young Men's Christian Associations of the United States and British Provinces is to be held in Portland, Me., commencing July 14. Every association of one hundred members or less is to be allowed three delegates; for every additional hundred members, or fractional part of a hundred, above fifty members, an additional delegate may be sent, provided no delegation shall exceed fifteen in number. The topics announced for discussion are, briefly: 1. The need of associational buildings, and plans for the accumulation of funds for building purposes. 2. Monthly social and business meetings. 3. Forms of Christian effort outside the special work of the associations. 4. How to reach German young men. 5. The relations of associations to each other. 6. Personal consecration.

A desperate attempt to revolt was made at the Northern Prison, at Michigan City, Ind., on Tuesday of last week. A plan had been agreed upon by fifty of the convicts to rise when in the dining-hall, overpower the guards, seize the track cars in use within the prison, batter down the walls, and escape in a body, every fellow shifting for himself. At dinner on Tuesday, "Hoosier Bill," the leader, rose, and flourishing a pruning knife, called on all who wanted freedom to follow him. About a dozen sprang up, but the remainder of the conspirators weakened and kept their seats. "Hoosier Bill" rushed at the guards, knocked one down and attacked a second, but before he could overpower him he was shot by the third. Seeing the defeat of their leader the others surrendered.

In the yard of Deacon James I. Robinson, near the centre of the town of Dudley, Mass., (says the Boston *Traveller*), there is a magnificent elm, fourteen feet in circumference at the bottom, with an immense spreading top, over one hundred years old. Forty years ago a teamster came along, and while stopping for a little while he amused himself by cutting a slit in the bark of this tree, about as high as he could reach, and inserting into it a slip of house-leak. It took root in the tree, and now, every spring for forty years, it throws out a shoot which dies down in the winter. There is now a healthy shoot, with its five or six ranges of leaves. It seems to have become a part of the elm.

FROM WASHINGTON.

WASHINGTON, June 17.

THE PRINTERS.

An adjourned meeting of printers of the Government printing office was held this afternoon. The committee appointed on Tuesday made a report in the case of L. D. Douglass, coming to the conclusion that he is not obnoxious to the charge of "ratting," much less is it true, in the language of the National Union, that he is "an avowed rat." Being deprived of membership therein through no fault of his own, but solely on account of unwarranted prejudice as to color on the part of members of the Union, it is impossible he could become a "rat" by a violation of any obligation of the Union or by any failure to take such obligation. A resolution was offered denouncing the action of the National Union in prejudicing the case while under consideration in a subordinate Union, and in contravention of all reliable evidence. The report and resolutions were agreed to. The Typographical Union of this District will meet on Saturday night and consider the Douglass question. The Government printing office compositors and pressmen will hold an adjourned meeting on Tuesday night.

CUBA

Intelligence has been received here by the friends of Cuba, representing that the fight at Peurto del Padre was of more importance than was at first reported. The effect of the defeat of the Spanish troops was decisive, almost destroying the effectiveness of the Spanish forces in that portion of the island.

Generals Cespedes and Querada are reported to be confident that they are masters of the situation, and that the independence of Cuba is a certainty.

THE GUILLOTINE.

The Secretary of War is arranging for a reduction of the clerical force in his department to the number authorized by law. This will necessitate the discharge of about a hundred clerks.

THE PENNSYLVANIA FENIANS.

PHILADELPHIA, June 17.

John M. Moriarty, President of the Irish Republican Association of Pennsylvania, has issued another address. He assures the readers that the country cannot recede from the position taken by Mr. Sumner. The Republican party must stand or fall by his patriotic utterance. The independent Irish voters must see to it, that it is their duty to assist in supporting the honor, the liberties and industries of America; but that they will forever repudiate any party of pro-English tendencies. The Irish Convention at Chicago will declare in favor of the protection of universal suffrage and war with England.

A PRACTICAL SUGGESTION.—The New *Chronicle and Examiner*, an influential organ of the Baptist denomination, closes an article on the question of politics and temperance, as follows: The temperance question is an eminently practical one. The ravages of intemperance, in all their ghastly horror, confront the eye and sicken the heart on every hand. But it is one of the evils that cannot be legislated out of existence, unless behind the legislation lies a vast, controlling moral sentiment, bearing it up and giving it force. Before the temperance men of this State can hope for the passage and execution—the latter is the more difficult task of the two—of thorough prohibitory laws, such a sentiment must be created. It can be created only by persistent, well-directed, prayerful work. There is no legislative "short cut" to reforms that take hold of men's lives and habits. Dabbling in politics, bargaining with party schemers, grasping at the "balance of power," but fritter away the strength that is all needed to forward the grand result.—When ever, and only when, the preponderating sentiment of the people is for the suppression by law of the iniquitous traffic in poison for body and soul, will it be possible to carry such a measure into effective operation. The great need now is for a Christian temperance revival.

The Massachusetts militia paraded in full force, Wednesday, in honor of President Grant. The *Traveller* says one cavalry company only of all the military of the State were unrepresented.

MONOGRAMS.—A. L. Hammett has just received from England a very choice assortment of Crests Monograms &c., of the Royal Family, Dukes and Bishops, which are for sale at Hammetts, 124 Thames St.

Business Notices.

—o—

We have watched the course of so many distressed, emaciated, and forlorn dyspeptics, of worn-out and prostrated females, who have taken a new lease of life, and gradually received vigor, strength, health, and the power of social pleasure from the effects of PLANTATION BITTERS, that we are not surprised at the Testimonials daily received.—If it is a pleasure to do good in the world, how full must be the measure of the Proprietors of these celebrated Bitters.

MAGNOLIA WATER.—Superior to the best imported German Cologne, and sold at half the price.

General Debility is Nature's Appeal for Help.

Thousands of persons, without any specific ailment, are the victims of languor and lassitude. The unthinking are apt to confound this species of inertion, with laziness; whereas it usually arises from a want of organic energy, for which the subjects of it are no more responsible than the near-sighted are for their defective vision. Such persons, although they may be free from pain, are as truly invalids, and as much in need of medical aid, as if they were tormented with the pangs of acute disease. They require a TONIC AND ALTERATIVE, that will rouse and regulate their torpid organizations. In cases of this kind, HOSTETTER'S STOMACH BITTERS produce an immediate and most favorable effect. The debilitated and desponding valetudinarian, who feels as if he were but half alive; who shuns company, and has no relish either for business or pleasure is *metamorphosed, by a brief course of this most potent vegetable invigorant, into quite a different being.* The change effected by the BITTERS, in his bodily and mental condition, is a surprise to himself and to his friends. He mopes no longer; the active principle of life, which seemed to have died out of him, is reawakened, and he feels like a new man. Remembering that debility is not only an affliction itself, but an *invitation to disease*, no time should be lost in recruiting the broken-down system with this choicest and most potent of all TONICS AND NERVINES.

MANHOOD.

IN THE YOUNG AND RISING GENERATION, the vegetative powers of life are strong, but in a few years [illegible] the pallid hue, the lack-lustre eye and [illegible], and the impossibility of application [illegible] show its baneful influence. It soon [illegible] to the observer that some depressing [illegible] is checking the development of the body. [illegible] is talked of, and perhaps the youth is removed [illegible] and sent into the country. This is one of the worst movements. Removed from [illegible] the ever changing scenes of the city, the powers of the body too much enfeebled to give zest to healthful and rurale exercise, thoughts are turned inwards upon themselves.

If the patient be a female, the approach of the menses is looked for with anxiety, as the first symptom in which Nature is to show her saving power in diffusing the circulation and visiting the cheek with the bloom of health. Alas! increase of appetite has grown by what it fed on; the energies of the system are prostrated, and the whole economy is deranged. The beautiful and wonderful period in which body and mind undergo so fascinating a change from child to woman, is looked for in vain; the parent's heart bleeds in anxiety, and fancies the grave but waiting for its victim.

HELMBOLD'S EXTRACT BUCHU, for Weakness arising from excesses or early indiscretion, attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, Often Enormous Appetite with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes, with Temporary Suffusion and Loss of Sight, Want of Attention, Great Mobility, Restlessness, with Horror of Society. Nothing is more desirable to such patients than Solitude, and nothing they more dread, for Fear of Themselves; no Repose of Manner, no Earnestness, no Speculation, but a hurried Transition from one question to another.

These symptoms, if allowed to go on—which this Medicine invariably removes—soon follow Loss of Power, Fatuity, and Epileptic Fits, in one of which the patient may expire.

During the superintendence of Dr. Wilson at the Bloomingdale Asylum, this sad result occurred to two patients; reason had for a time left them, and both died of epilepsy. They were of both sexes, and about twenty years of age.

Who can say that these excesses are not frequently followed by those direful diseases Insanity and Consumption? The records of the Insane Asylums, and the melancholy deaths by Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibition appears. The countenance is actually sodden and quite destitute—neither Mirth or Grief ever visits it. Should a sound of the voice occur, it is rarely articulate.

"With woeful measures wan Despair
Low sullen sounds their grief beguiled."

Whilst we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences. HELMBOLD'S HIGHLY CONCENTRATED FLUID EXTRACT OF BUCHU. There is no tonic like it. It is an anchor of hope to the surgeon and patient, and this is the testimony of all who have used or prescribed it.

Sold by Druggists and Dealers everywhere. Price $1.25 per bottle, or six bottles for $6.50. Delivered to any address. Describe symptoms in all communications.

Schenck's Pulmonic Syrup,

Seaweed Tonic and Mandrake Pills will cure Consumption, Liver Complaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the patient outgrows the disease and gets well. This is the only way to cure consumption.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivalled success in the treatment of Pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the ducts of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented except calomel (a deadly poison which is very dangerous to use unless with great care,) that will unlock the gall bladder and start the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure Consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs in some way are diseased, either tubercles, abscesses, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Dr. Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow, the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure Consumption.

When there is no lung disease and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all bilious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparations with the same remarkable success. Full directions accompany each, making it not absolutely necessary to personally see Dr. Schenck, unless patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed. He is also professionally at No. 32 Bond Street, New York, every other Tuesday, and at No. 35 Hanover Street, Boston, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half dozen. Mandrake Pills 25 cents a box. G. C. GOODWIN & CO., 38 Hanover St., Boston, Wholesale agents. For sale by all druggists. 1sn4—1y sn

The object of a Mutual Company is to furnish insurance to its policy holders at the actual cost, and the main thing to be considered is, what conditions are most favorable to make the actual cost as near nominal as possible. This Company will insure nothing but Dwellings and Household Furniture, which experience has shown to be the safest of all insurance risks, thus putting the liability of losses at the lowest possible standard. The premium charged is sufficient to cover all probable losses and expenses during the term for which the policies are issued, thus avoiding the necessity of assessments, which are always *distasteful and expensive.* The insured receive all the profits,—every dollar, after deducting the necessary expenses, being invested for their benefit, and returned to them at the expiration of their policies, thus offering one of the safest and cheapest systems of insurance.

BOTH SEXES, SINGLE OR MARRIED,
DR. L. DIX'S
PRIVATE MEDICAL OFFICE,
No. 21 Endicott Street, Boston, Mass.,
is so arranged that patients never see or hear each other. Recollect the only entrance to his Office is **No. 21**, having no connection with his residence, consequently no family interruption, so that on no account can any person hesitate applying at his office.

DR. DIX
boldly asserts (and it cannot be contradicted, except by Quacks, who will do or say anything, even perjure themselves, to impose upon patients) that he
is the only regular graduate physician advertising in Boston.
SIXTEEN YEARS
engaged in treatment of Special Diseases, a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors, &c., that he is much recommended, and particularly to
Strangers and Travelers.

To avoid and escape Imposition of Foreign and Native Quacks, more numerous in Boston than other large cities.

DR. L. DIX
proudly refers to Professors and respectable Physicians—many of whom consult him in critical cases, because of his acknowledged skill and reputation, attained through so long experience, practice and observation.

AFFLICTED AND UNFORTUNATE!
be not robbed and add to your sufferings in being deceived by the lying boasts, misrepresentations, false promises and pretensions of
FOREIGN AND NATIVE QUACKS,
who know little of the nature and character of Special Diseases, and less as to their cure. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, how obtained, unknown; not only assuming and advertising in names of those inserted in the Diplomas, but to further their imposition assume names of other most celebrated Physicians long since dead. Neither be deceived by
QUACK NOSTRUM MAKERS,
through false certificates and references, and recommendations of their medicines by THE DEAD, who cannot expose or contradict them; or who, besides, to further their imposition, copy from Medical books much that is written of the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Extracts, Specifics, &c., most of which, if not all, contain Mercury, because of the ancient belief of its "curing everything," but now known to "kill more than it cures," and those not killed, constitutionally injured for life.

IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.

Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon MERCURY, and gives it to all his patients in Pills, Drops, &c., so the Nostrum Maker, equally ignorant, adds to his so-called Extracts, Specific, Antidote, &c., both relying upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but, alas! nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years, until relieved or cured, if possible, by competent physicians.

BUT ALL QUACKS ARE NOT IGNORANT.

Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, there are those among them who will perjure themselves, contradicting giving mercury to their patients or that it is contained in their Nostrums, so that the "usual fee" may be obtained for professedly curing, or "the dollar" or "fraction of it" may be obtained for the Nostrum. It is thus that many are deceived also, and uselessly spend large amounts for experiments with quackery.

DR. L. DIX'S
charges are very moderate. Communications sacredly confidential, and all may rely on him with the strictest secrecy and confidence, whatever may be the disease, condition or situation of any one, married or single.

TO THE LADIES.—The celebrated DR. L. DIX particularly invites all ladies who need a Medical or Surgical adviser, to call at his Rooms, No. 21 Endicott Street, Boston, Mass., which they will find arranged for their special accommodation.

Dr. DIX having devoted over twenty years to this particular branch of the treatment of all diseases peculiar to females, it is now conceded by all (both in this country and in Europe) that he excels all other known practitioners in the safe, speedy and effectual treatment of all female complaints.

His medicines are prepared with the express purpose of removing all diseases, such as debility, weakness, unnatural suppressions, enlargements of the womb, also all discharges which flow from a morbid state of the blood. The Doctor is now fully prepared to treat in his peculiar style, both medically and surgically, all diseases of the female sex, and they are respectfully invited to call at

AMERICAN AND FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of the United States Patent Office, Washington, under the Act of 1837.

No. 75 State St., opp. Kilby St., Boston.

AFTER an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered on all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his large practice, made on *twice rejected* applications, SIXTEEN APPEALS, EVERY ONE of which was decided *in his favor* by the Commissioner of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse.
CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."

"Mr. R. H. Eddy has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part, leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.
JOHN TAGGART."

HORACE WATERS.

TESTIMONIALS.

The Waters' Pianos are known as among the very best.—*N. Y. Evangelist.*

We can speak of the merits of the Waters' Pianos from personal knowledge as being of the very best quality.—*Christian Intelligencer.*

The Waters' Pianos are built of the best and most thoroughly seasoned material.—*Advocate and Journal.*

Our friends will find at Mr. Waters' store the very best assortment of Pianos, Melodeons and Organs to be found in the United States.—*Graham's Magazine.*

MUSICAL DOINGS.—Since Mr. Waters gave up publishing sheet Music, he has devoted his whole capital and attention to the manufacture and sale of Pianos and Melodeons. He has just issued a catalogue of his new instruments, giving a new scale of prices, which shows a marked reduction from former rates, and his Pianos have recently been awarded the first Premium at several Fairs. Many people of the present day, who are attracted, if not confused, with the flaming advertisements of rival piano houses, probably overlook the modest manufacturer like Mr. Waters; but we happen to know that his instruments earned him a good reputation long before Expositions and "honors" connected therewith were ever thought of; indeed, we have one of Mr. Waters' Pianofortes now in our residence (where it has stood for years), of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as well as several celebrated pianists, have performed on the same piano, and all pronounce it a superior and *first-class instrument*. Stronger endorsement we could not give.—*Home Journal.*

DODD'S NERVINE DID IT.

NEW LONDON, CONN., April 26, 1869.

REMEMBERED FRIEND—I thought it well to wait another week before writing, to see if I continued to improve, as I have been doing for some time under the treatment of the new medicine, and I am happy to tell you that I am getting better—even faster than when you were here. I commenced the use of DODD'S NERVINE without anybody advising me to it. When I began with it I could only walk from my bed to the chair. My trouble has been extreme pain in the head, and this lasted over three years. All the medicine I have heretofore taken has failed to give any relief. I am now able to go up and down stairs and daily improving. I consider the NERVINE the best medicine I ever found, and shall continue its use, for I am confident of entire recovery. I have taken only three bottles, and would not be without it on any account.
je10-8w Very truly, MRS. L. S. NUTZ.

A LETTER

From Dr. Connacher
To Dr. Wolcott.
Dear Sir: A Man
Called on me last night
To visit a sick woman,
Who was not expected
To live till morning.
Several physicians
Had attended her,
And yesterday the Priest
Visited her for the last time.
She had been confined
Five weeks before my visit.
I found the room
Where she lay crowded
With Men and Women
Watching for her to die.
She was so low
She could not speak
Only in Whispers,
And very weak.

She had severe inflammation of the Bowels. I applied PAIN PAINT freely, and in less than fifteen minutes every particle of Pain was gone. Another Triumph for your PAIN PAINT. Her flesh was nearly raw from repeated applications of Mustard Plasters. They purchased a $5 bottle of PAIN PAINT, and she is doing well, and out of Danger. I had just got home, and nearly asleep, when another person came after me wanting relief for his Wife, who had toothache. She was cured instantly by applying PAIN PAINT freely to the outside of her face. Last Monday night a gentleman who keeps a Livery Stable here called on me to visit his Wife, who has been suffering for a long time with Liver Complaint, Cough, and a host of troubles, the result of Catarrh. *Every Physician* in this town has practiced on her, but always left her worse. The Bottles that had contained the *Drugs she had swallowed* would fill a large Dry Goods Box. In her case I used both PAIN PAINT and ANNIHILATOR; in a few minutes she was entirely relieved of all pain, and could talk in longer breaths than she had done in many months. She bought a pint of PAIN PAINT and a pint of the ANNIHILATOR, and is recovering her health rapidly. I could send you a hundred cases where I have used your Remedies for Pain, Sickness, and Diseases, which had baffled all the skill of Medical Practitioners, that have fully recovered by your simple and harmless Remedies, by my recommendations, and for whom I have prescribed.

A Baptist Clergyman here in Hyde Park is an enthusiastic admirer of PAIN PAINT, and wants to get one of your Charts to hang up in his library. He thinks PAIN PAINT is the greatest thing ever known. I shall go to Pittston in a few days and will write you again more particulars. I cannot close without sending you a sworn affidavit, handed to me by a gentleman residing in Wilkesbarre, Penn., to whom I applied PAIN PAINT with astonishing success.
DR. J. CONNACHER.

SCRANTON, PA., May 12th, 1869.

On Friday, April 30, I was suddenly taken with rheumatism in my back, so that I was unable to leave my bed. On Monday, May 3, Dr. Connacher was sent for; with great pain and difficulty, I turned over in bed to have Him *Paint* my back. In less than three minutes I arose and dressed myself and went down stairs. I felt no more pain and but little soreness; I walked all around the public square and to the Bristol House in less than twenty minutes from the first application of *Pain Paint*. I am now free from all pain, and can be seen any day at the fruit and confectionery store on Main Street, near the public square. Wilkesbarre, Penn., May 5, 1869.
SAMUEL BUZINE.

Sworn and subscribed before me the 5th of May, 1869.
E. B. HARVY, Justice of the Peace,
Wilkesbarre, Penn.

Dr. R. L. WOLCOTT, of 181 Chatham Square, N. Y., has more patients than any Hospital in the world. He discards all dosing, and removes pain, free of cost, at his office. His PAIN PAINT, for Pain, and ANNIHILATOR, for Catarrh and Weak Nerves, is sold at all Drug Stores. He charges nothing for advice, and sends to any person his Remedies free of express charges, on receipt of $5 at each order.— Therefore none need be deceived by counterfeits.— He uses only White Wrappers. je10-4w
